8. Available only in Online Mode

## Why Our Test Series is Unique

1. For many institutions, timely checking of papers is not done. The promised time by institutions is typically 10 days, but even that is not followed. It's difficult for students to do follow-up every time and many give up. We're promising only 5 days of checking time after receiving your answer paper.
2. Many students do not complete the test series. We've introduced the cashback system and shorter subscription validity for this purpose.
3. The one-to-one support by faculty, question paper discussion are also the facilities which are only promised by institutions and used by very few students. We're not including them in our test series. The cost associated has been passed on to you in the form of discount.

## Terms & Conditions

### 30% Cashback Offer:

Students who will submit at least 9 of 10 tests within 18 hours of receiving the question paper will get 30% cashback of purchase price, at the end of course.

### 50% Cashback Offer:

After completion of test series, based on marks of all the papers, first 3 students will get flat 50% cashback of purchase price.

### Subscription Validity:

Test series subscription will be valid till the end of January 2023.
